Your dock Type and Max Gap:

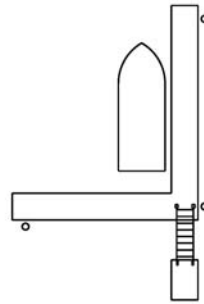

Your dock type and Gap determine if DockStairs will work for you. The three designs below are examples of proper alignment between the dock and floater. You need a solid level mounting point, and 8-10 feet of floater to support the wheels. Max Gap is the measurement between your dock face and floater.

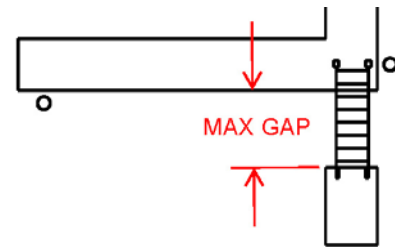

DOUBLE

SINGLE

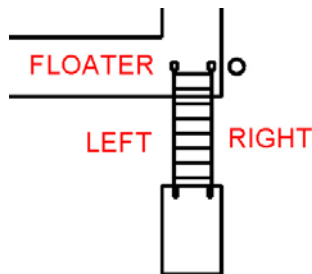

FLOATER

GAP _____ inch

Railing Choice:

Each DockStair comes with one railing, but you can order one for the other side too.

LEFT ONLY

RIGHT ONLY

BOTH SIDES

Click to submit this form:

We'll send you a cost estimate, and then we can review your dock layout and requirements.
